

SWT40L-OB-TA4

Specifications

The SABINE SWT40L-OB-TA4 is a small Lavalier mic with a big full sound. This omnidirectional microphone uses a special European-made capsule and gives the user a lot of gain before feedback. Featuring an electret condenser with low mass diaphragm element, the SWT40L-OB-TA4 provides high-quality voice pick-up. It's compact, miniature, high-performing design can be attached discreetly to a tie, or the clothing of the person using it allowing for a hands free operation. It is either battery or phantom powered and is compatible with most power modules and wireless transmitters. Available in TA4 connector with a high tensile, low contact noise cable the Sabine SWT40L-OB-TA4 is recommended for Sabine wireless body packs.

Element

Back Electret Condenser

Polar Pattern

Omnidirectional

Frequency Range

20Hz - 20,000 Hz

Sensitivity

(@ 1kHz): -53dB ± 3dB (0 dB = 1V / μbar, 1KHz)

Impedance

2,000Ω±30% (@ 1KHz)

Operating Voltage

1V ~ 10V DC Battery

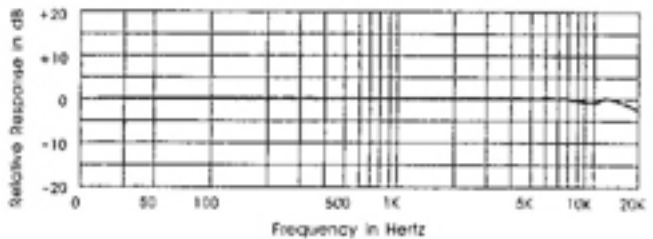

Dimension

04 x 8.5 mm

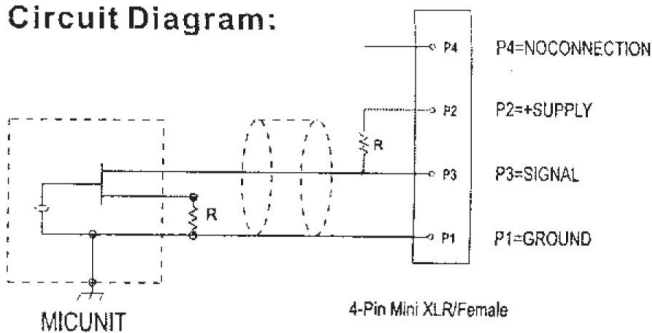

Accessories Included

Tie Clip, Windscreen
