“I can’t imagine going out and mixing monitors without FBX filters ... Other imitators are a poor substitute — don’t waste your money!”

— *Mark Frink, monitor mixer for K.D.Lang, Joni Mitchell. GRQs used to time align, EQ, compress & prevent feedback in a 10-mix monitor system. Mix Magazine, January 2001.*

“It’s kind of like a magic box... pretty miraculous! If we used all the gear it would have taken years ago, we would have had to add another rack to do all those things we’re doing here.”

Holt Stevens, Project Manager, Long Communications. Five Graphi-Qs installed in the Nash County Administration Building, Nashville, North Carolina.

Waitakere City Council, Auckland, NZ

“The Graphi-Q FBX setup was fast and easy and the system sounded great. It made Sabine a lifesaver in an acoustically terrible sounding room. I want more control, I want accurate control, and I want reliable gear, and I’m finding that Sabine products meet those criteria.”

Larry Schwartz, Event Manager, Corporate Presentations. Graphi-Q used in a wide variety of projects and installations.
